

LOTUSIER TEA HUMIDOR – DECO COLLECTION

Lotusier's Tea Humidor has been specially designed to promote and celebrate the beauty of tea whilst preserving its flavours and qualities. It is a collectable objet d'art that will be prized by tea lovers and anyone with an appreciation for design and rare craftsmanship. The Deco Collection pays homage to the Euro-American Occidental tea drinking culture and is inspired by the Arts Décoratifs (Art Déco) movement that flourished between 1910 and 1939. Each Tea Humidor opens to reveal innovatively designed, hand-blown crystal containers that form the hub of an elegant humidification system, complete with bespoke German precision instruments for monitoring humidity, Swiss-made accessories, and hardware.

FOUNDRAE COLLECTION

Authentic, classic, and personal are just a few words that describe the Foundrae collection. More than just jewellery, these items are modern heirlooms that allow the wearer to express herself to the world. Foundrae's charming cigar band rings, enamelled in a wide range of bright shades, impart a vintage Havana-nights ambience (and make us fervently hope that the current US president will not reverse the long-awaited thaw in Cuban-American relations).
