

## WHAT'S IN STORE

Mall of the Emirates is pleased to welcome the third Hermès store in Dubai. The apartment-like design of the 276-square metre retail space was entrusted to RDAI, directed by Denis Montel. Guests are greeted with a stunning floor which features the Hermès Ex-Libris crafted in a mosaic of linen and white inlaid into the floor, and finished in the classic Hermès Faubourg pattern mosaic – also in shades of linen and white with red crystal cabochons. C'est magnifique!

## RISE + SHINE

Ghini 1961's eclectic 2016 collection with designs by Branzi, Campana, Giovannoni, Hutten, Zupanc and Studio Job boasts the refined luxury of polished metal. Its new copper finish enriches each design with a highly decorative yet sophisticated effect. Hutten's *Tip-top* Trays feature a visual slight-of-hand: although the 3D triangles appear to be the same size, they have been stretched to create a surprising hexagonal structure with different functions.

## FLORAL FANTASY

Calvin Klein's newest scent, *Deep Euphoria* is the first vibrant chypre floral in the brand's portfolio. Enveloped in a stylish, minimalist faon, the fragrance opens with notes of Cascalone and Black Magic rose, as the mix of top and middle notes brings a modern femininity with geranium and jasmine sambac fragrance, and the drydown brings a smooth, sensual texture with musk, patchouli and mineral woods.
